Version 2014.08 was just released!!

### **FIXED / ENHANCED:**

- Library Editor:

- Library Editor "Sort Column Data" feature was broken
- Updating FPX file Rows throws error messages
- Editing "Physical Description" column caused problems
- General:
  - An issue in dealing with placeholder pins (i.e. removed/hidden) that was crashing the tool
  - Trailing placeholder pins (i.e. removed/hidden) are now clipped after the model has been made
- FP Designer:
  - Enhanced the pad stack manager
